

## **Rugby Prayer**

**Our gracious and heavenly Father, we pause here on this pitch, thankful and mindful of the guidance that you have given us.**

**As Rugby Players, we do not petition any special favors, we ask only that you let us compete on this glorious field, as on life's field. We don't ask to win or lose, to never step out of bounds, to not lose a scrum, miss a kick, be late to a ruck, or loose a line out. We only ask that you help us to compete as pure as the grass we run on and in a manner as resilient as the wind that blows across the field of play.**

**So when we do score that last try in between the posts in that place up there, where the grass is green and lush and the ball is always on the field, – you'll tell us as we touch the ball down – that our kick will be straight on with no wind.**

**Amen**
